

Everything to start your journey

VALUE THROUGH KNOWLEDGE

# OnlineAVL Essential

Everything you need to start your journey and make a leap in productivity, efficiency and customer service.

The features in OnlineAVL Essential embody the years of innovation and expertise behind our OnlineAVL Technology. They are the foundation of your vehicle tracking solution and the beginning of the far-reaching benefits this market-leading technology has to offer your business.

## Limitless Potential

Find out more about our Fleet+ and Complete products, and range of enhancements at [navmanwireless.co.uk](http://navmanwireless.co.uk)

### Real Time Tracking

Monitor and manage your fleet at all times.

Full fleet visibility ensures constant control. Stay connected to your vehicles and react quickly to changing business needs and customer requirements. The knowledge, flexibility and power to maximise productivity and improve service.

### Google Mapping

Visualise the terrain with a trusted guide.

Tracking expertise combined with the resources of global giant Google. Toggle between road maps, aerial or hybrid mapping and zoom in for high-resolution detail. Customise your maps with 'points of interest'.

### Activity Alerting

Find out when something happens, as it happens.

Receive alerts of predetermined vehicle activity, such as ignition on/off or activation of external power sources. Configure pop-ups and audible notifications as required to ensure you always stay informed.

### Report Suite

Access the vital statistics to benchmark and boost performance.

Assess criteria including mileage, geofence, activity reports and site stop data. Identify successes and areas for improvement. Compare individual vehicles to fleet wide trends. Find opportunities to increase efficiencies and strengthen customer service.

### OnlineAVL Technology

Powered by market leading technology with no compromise.

OnlineAVL Essential is powered by the same market leading technology as our entire range. Each solution draws on the same industry experience and expertise embodied in OnlineAVL Technology to maximise ROI for your business.
